NO. 128 (Sass)	
Tall, large silky pink. Very nice.....	1.50
MISCHIEF (Auten) 8.6	
Lovely soft pink, the finest late single.....	1.50

HYBRIDS—Single and Doubles

These peonies are early. Most do not have more than one flower to the stem. Interesting flowers and foliage.

BLACK MONARCH (Glasscock)	
This is beautiful. A large double black red that has strong stems. 3 eye div.....	10.00
BRIGHT KNIGHT (Glasscock)	
Large single scarlet with a tint of orange, stiff stems. A "must have," we think.....	6.00
BURGUNDY (Saunders, 1941)	
We received this stock from Mr. Saunders and he catalogs it as "blackish purple" petals. To us it seems more like dark wine. A very free bloomer. 3 eye div.....	5.00
CHERRY RED (Glasscock)	
A double almost scarlet on medium tall plant, slender but good stems.....	6.50
JANET (Auten)	
Large double bright cerise, stems slender, but strong	1.50
JEWELL (Glasscock) 8.76	
Stiff heavy stems, single flowers, open dark red becoming bright red. Huge. The long golden stamens show brightly on the dark red flowers, stunning	2.00
LEGIONAIRE (Glasscock) 8.5	
Medium size, rich red, spreading stems.....	1.50
PINK ANGEL (E. Christenson, 1947)	
Registered with the American Peony Society, 1948. Very large single flowers of pale pink with hugh center of upstanding stamens. The stamens are wine color at the base becoming yellow about half way up. Petals have crepe like finish, extra early. Heavy stems and very large nice foliage. Two eye division.....	10.00
Three eye division	15.00
MLOKOSEWITSCHI (Species)	
Pronounced (mm-lok-o-see-vit'-shee) it blooms around three weeks before Chinese peonies. Color clear unfading sulphur yellow, cup shape, four to five inches in diameter. The stamens are quite long, making a nice center. As the plant grows here, its around 20 inches tall. Early spring finds its foliage and stems reddish colored, turning to bluish green later, with the under side of the leaves pale glaucous. 3 eye div.	7.50

CANADENSE LILY

Bulbs from 1½ to 2 inches in diameter..... .50

This lily is wanted by all who see it in bloom in the garden. It has sturdy tall stems, the orange yellow bells face downward, and are dotted with purplish black.
